

DSI 2 (16 Input)

WINTRISS®

Specifications

Compatible Sensor Types	NPN, PNP, 2-wire DC, Electromechanical
Sensor Connections	Power (+24VDC), Common, Signal
Sensor Connectors	Two HD-19 connectors - 8 sensor inputs each (RDE UC-19S1N1280DU or equiv.) Available with knockouts only for user installed connectors
Available Sensor Power	24 VDC + 5%, 1A max
Pulse Stretching Inputs	Outputs associated with Inputs 1-4 and 9-12 are stretched to 10mSec
Input Power Requirements	100-240 VAC 50/60 Hz, 20VA max Optional - 24VDC, 1.3A
LED Indicators	Sensor Output and Power On
Output Signals to Die Protection Control	NPN Only
Output current w/ Sensor Off	2 mA Max.
Operating Temperature	32° to 122° F (0° - 50° C)
