

## DSI 2 (8-Input)

Specifications	
<b>Compatible Sensor Types</b>	NPN, PNP, 2-wire DC, Electromechanical
<b>Sensor Connections</b>	Power (+24VDC), Common, Signal
<b>Sensor Connectors</b>	<p>Eight 4-pin locking connectors (Lumberg SV-40 or equiv.)</p> <p>Binding posts in parallel with inputs 1-4 for connecting electromechanical sensors</p> <p>12-pin QDP Connector (Lumberg SV-120 or equiv.)</p> <p>Optional HD-19 (RDE UC-19S1N1280DU or equiv.)</p> <p>Available with knockouts only for user installed connectors</p>
<b>Available Sensor Power</b>	24 VDC $\pm$ 5%, 500mA max
<b>Pulse Stretching Inputs</b>	Outputs associated with Inputs 1-4 are stretched to 10mSec
<b>AC Power Requirements</b>	100-240 VAC 50/60 Hz, 20VA max
<b>LED Indicators</b>	Sensor Output and Power On
<b>Output Signals to Die Protection Control</b>	NPN Only
<b>Output current w/ Sensor Off</b>	2 mA Max.
<b>Operating Temperature</b>	32° to 122° F (0° - 50° C)
