

There are multiple hardware options you can use in your ShopFloorConnect installation.
See what fits your shop floor needs below:

SmartPAC 2/PRO Compatible

If you have a SmartPAC PRO or SmartPAC 2 in your facility, purchase the ShopFloorConnect Option to turn your SmartPAC into a data collection tool.

ShopFloorTracker

- Cost-efficient data collection option.
- Track up to 4 inputs, digital/analog options: count, scrap count, run/idle times, pressure, current, humidity, or temperature.
- Discrete data collection with no operator involvement.
- Wireless device.

SMI 2

- Connects to virtually any machine.
- Touchscreen machine monitoring interface.
- Allows operator to define downtime reasons for each significant machine stoppage.
- Drop-in installation, start collecting data same day.
- Wireless available as an option.
